Dear Mr. Hestmark,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced document submitted by DOE and it's prime operating contractor, EG&G. The Division's comments are attached.

The Division found this version of the Remedy Report for IHSS 199 to be much improved compared to the previously submitted version. However, members of the Rocky Flats Program Unit (RFPU) are still reviewing the risk assessment portions of the document and their comments will be forwarded at the earliest possible time. We are willing to ~~grant approval~~ of the document pending the incorporation of these comments and comments from the RFPU.

If you have any questions concerning these comments, please call Joe Schieffelin of my staff at 331-4421.

Sincerely,

Gary W. Baughman
Unit Leader, Hazardous Waste Facilities
Hazardous Materials and Waste Management Division
